# **Carlos Ramos**

Portfolio: carlosr.me Email: jramos@ut.ee

Mobile: (+372) 5394-7641

### **Education**

Msc. Computer Science
 University of Tartu (2019 - 2021)

Bs. Computer Science
 Universidad Peruana de Ciencias Aplicadas (2012 - 2017)

## Professional experience

- Software Engineer as Freelance (February 2018 August 2019)

  Design, develop, and maintain cloud-based applications. Build the infraestructure and supervise the software lifecycle of different private projects.
- Software Engineer at DoApps SAC (February 2015 January 2018)
  Develop and maintain web-based software at large scale.

## Research experience

- Data Systems Group at the University of Tartu (July 2020 Present)
  - SparkSQL RDF Benchmark: Infraestructure setup, benchmark and analysis
    of a big data research project.
  - X-Road: Design and implementation of an asynchronous communication prototype for the Nordic Institute for Interoperability Solutions.
- SummaryChat (June 2017 December 2017)
   Bachelor thesis project about automatic text summarization using Deep Neural Networks.

## Teaching experience

• Teaching Assistant — Data Structues and Algorithms (April 2014 - July 2014)

#### **Honors**

- Lima Smart City Hackathon 2015 Team winner Mobile app for events and matching
- **Best Undergraduate IT Student 2013** University mention

### **Publications**

- An In-depth Comparison of Large-scale RDF Relational Schema Optimizations
   Using Spark-SQL. Mohamed Ragab, Riccardo Tommasini, Feras Awaysheh and
   Juan Carlos Ramos. DOLAP 2021
- Automatic Summarization using Recurrent Neural Networks using herarchical LSTM — Juan Carlos Ramos Martinez and Hugo Calderón. ICPRAM 2017
